DETAILED ACTION

Examiner's Amendment

An examiner's amendment to the record appears below. Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as provided by 37 CFR 1.312. To ensure consideration of such an amendment, it MUST be submitted no later than the payment of the issue fee.

Authorization for this examiner's amendment was given in a telephone interview with Glenn L. Webb on 5/16/2007.

The claims 19-20 have been cancelled.

Drawings (1-4) are required to replace photographs (1-4).

Allowable Subject Matter

Claims 1-18 are allowed. The following is an examiner's statement of reasons for allowance: Prior art fails to show a system for monitoring the status of a pressurized automotive cooling system comprising a single manifold connected to the pressurized automotive cooling system environment; a low- pressure switch on the manifold for sensing when a preset minimum limit has been reached in the pressurized automotive cooling system; a low pressure alert display connected to the low pressure switch for displaying an alert when the pressure of the automotive cooling system is below the minimum preset limit; a high pressure switch on the manifold form sensing when a preset maximum limit has been reached in the pressurized automotive cooling system; and a high pressure alert display connected to the high pressure switch for displaying
